

Two Day Workshop
28 & 29 August 2017

Vaccines in Public Health Workshop

AT THE CHILDREN'S HOSPITAL AT WESTMEAD

This course is an elective within the Master of Public Health (MPH) and Master International Public Health (MIPH) programs at The University of Sydney.

It is also available to any health professional interested in vaccines and public health. Prior training or experience in epidemiology and/or biostatistics is recommended but not essential.

The workshop includes interactive lectures and small group case studies on epidemiology, program implementation, Indigenous health, adverse events and public controversies presented by some of Australia's leading researchers in immunisation.

Registration applies for those not enrolled in a MPH or MIPH program of \$1200 for two days or \$600 (incl. GST) for one day.

For more information [visit the VIPH 2017 workshop webpage](#).
