

Vaccines in Public Health Workshop

At The Children's Hospital at Westmead

- Elective in the Master of Public Health (MPH) and Master of International Public Health (MIPH) programs at The University of Sydney.
- Also available to any health professional interested in vaccines and public health. Prior training or experience in epidemiology and/or biostatistics is recommended but not essential.
- Interactive lectures and small group case studies in epidemiology, program implementation, Indigenous health, adverse events and public controversies.
- Presented by some of Australia's leading researchers in immunisation.

Two-day interactive course

3 & 4 September 2018

Registration cost applies to those not enrolled in a MPH or MIPH program: \$1200 for two days or \$600 (incl. GST) for one day.
